**INITIATIVE ON COLLABORATIVE WORK BETWEEN SARC & SIR SYED UNIVERSITY
OF ENGINEERING & TECHNOLOGY**

Dr. Attaullah Khan, Director General (SARC) has initiated to explore collaborative working relationships with Sir Syed University of Engineering & Technology, Karachi for modernization in agricultural practices in Pakistan. For this purpose, a meeting of DG (SARC) along with SARC scientists has been steered with chancellor and vice chancellor of Sir Syed University of Engineering & Technology (SSUET) on 22-01-2020 at SSUET, Karachi. Exchange of information related to modern agriculture and the role of engineering and technology University in adapting new technologies for the improvement in agriculture has been discussed. Updated knowledge on kitchen gardening, urban agriculture and other technologies will be shared through seminars, workshops and exhibitions at SSUET. Review of landscaping plan by SARC scientists for new campus to be established at National Highway has also be desired by SSUET. SARC offered provision of internships for SSUET students at research institutes. Both organizations agreed to enter into MoU for strengthening of collaborations for modernization in agriculture sector of Pakistan.
